

CEMG Advancing Construction Engineering and Management Profession

6-Week Interactive Exam Preparation Course on

Project Management Professional (PMP) For Engineers

The Next Big Step in Your Career

Webinar Facility Available

Oct 23, 30 & Nov 6, 13, 20, 27, 2016
Sundays Only (10:00 AM - 05:00 PM)

Center for Continuing Engineering Education
(CCEE), NED University

Pass your PMP Exam in First Attempt

Engineer-focused Program

Free Demo Session

1.0 CPD for PEC Registered Engineers
42 Contact Hours

Free Orientation Session
Saturday, 15 Oct (3:00PM - 6:00PM)

Batch - 2

Expert Facilitators

Dr. Muhammad Wasif, PMP Certified Academician is working as Assistant Professor at Department of Industrial & Manufacturing Eng., NED. With a Ph.D. in Mechanical Engineering (CAD/CAM) from Canada, his research interests include: Product & Project Life Cycle Management, Optimization & Productivity Enhancement of Production Facilities, Optimization of Tool Design & Machining Parameters and Computerized Simulation of Production Facilities.

Mr. Ghulam Mujtaba Shaikh is a result-oriented leader with over 17 years' experience in infrastructure, buildings, transit, transportation, and energy projects in USA, UAE, KSA, and Pakistan. He has expertise in leading multidisciplinary teams with proficiency in all project phases - from initiation to close-out. A professional engineer in Pakistan and California with a PMP certification, Mujtaba is competent in development of design, technical, & contract specs. He holds a BS from NED University, Karachi and a MS from UC, Berkeley.

Prof. Rizwan U. Farooqui, a Professor at Department of Civil Engineering at NED, has a Ph.D. degree in Construction Project Management from USA. He has over 18 years of research, teaching and construction Industry experience in the USA, Pakistan, UAE, Singapore and Ethiopia. In addition to academic activities, Prof. Farooqui has remained actively involved in national and international funded research projects for construction industry improvement.

Mr. Iqbal Hashmi, a Mechanical Engineer with an MBA and MS, has professional exposure in the field of Business Management with over 25 years of consulting and teaching experience. He has experience of managing three different companies in a row in engineering and consumer sector for more than 17 years as the Chief of the Organization. Mr. Hashmi possesses high level expertise in strategy development, new business development & Technical Management.

ABOUT THE PROGRAM

The Project Management Professional (PMP) certification is a must-have for any serious project manager. From a global context, PMP credential has become a standard requirement for Project Managers and allied professionals and is the credential of choice for organizations - in various engineering and non-engineering industries - while hiring professionals. PMP certified Project Managers on average earn over 10% more than those without the certification. PMP certification can help you increase your employment options as well as improve your career prospects while working in Pakistan or abroad, while also enabling you to progress well on your current job and earn more money.

Our unique, efficient and progressive PMP certification training methodology allows PMP exam candidates to prepare for PMP exam and earn their PMI's 35 contact hours certificate as well.

The PMP exam requires stamina and focus. Our courses guide PMP exam candidates to master the exam format. Learn as you go in a structured and engaging course environment. Our program is distinct in that it is engineer-focused as it is delivered by academicians and project management professionals coming from diversified engineering domains including Mechanical, Industrial & Manufacturing and Civil Engineering Faculties. Our expert instructors bring their real-world and relevant experience to the students by providing them access to examples quite relevant to the engineering problem solving domains.

Although the program is specifically designed for engineers to pass the most recent version of the PMP exam, the course is equally beneficial for anyone eager to learn the whole Body of Knowledge of Project Management (without going for the exam) and hence develop oneself into a more proficient project manager. A complete in-depth understanding of project management discipline coupled with a treatment of the skills, tools and techniques will help the participants successfully manage projects in complex environments.

LEARNING METHODOLOGIES

- Lectures/ Presentations
- In-Class Exercises oriented toward the PMP Exam
- Group Activities
- Experiential Learning – both local as well as global
- Videos
- Interactive Discussions and Q/A Sessions
- Real Life Case Studies from Engineering Projects
- Mock PMP Exam with access to Thousands of Questions and Key Books

WHO SHOULD ATTEND

Academicians, Engineers, Departmental Heads, Company Directors, CEOs, Government Officials, Construction Managers, Contractors, Design Consultants, Project/Product Managers, System Architects, Team Leaders/Members, Portfolio/Program Managers, Project Managers/Scrum Masters, PMO, Business Sponsors and Product Managers/Owners, Team/Technical Leaders, Executives and Managers and all whose work requires strong grasp of Project Management Fundamentals.

PROGRAM BRIEF

- Introduction and PMP Exam overview
- The Project Management Framework
- Project Management Organizational Structures and PMO
- The Project Management Process Groups
- Project Integration Management
- Project Scope Management
- Project Time Management
- Project Cost Management
- Project Quality Management
- Project Communication Management
- Project Human Resources Management
- Project Risk Management
- Project Procurement Management
- Project Stakeholder Management
- Professional and Social Responsibility
- Putting It All Together
- PMP Mock Exam

KEY TAKEAWAYS

- 1.0 CPD for Registered Engineers
- 35 PMI Contact Hours for PMP Exam
- Certificate of Competence upon Successful Completion.
- Access to Thousands of Sample Questions
- Access to Key Books
- Complete Coverage of all Knowledge Areas and Processes in PMBOK 5.0
- Intensive Preparation for the most recent version of PMP Exam based on PMBOK 5.0
- Guarantee to Pass the PMP Exam in First Attempt
- Learning from knowledge & experience of a diversified group of trainers coming with distinct engineering projects exposure – both locally as well as globally
- Real Life Case Studies from Engineering Projects
- Slides and Handouts as Take-Home Ready Reference Material
- Continuous Guidance for Registering for the Exam
- Workshop remembrances including group photo, and a bunch of Giveaways
- Networking with other professionals in the Engineering Project Management domain.

INVESTMENT

PKR 25,500/-

- **Discounts Available**
 - **Installment Plans Available**
 - **Need-Cum-Merit Scholarships Available**
- Ask for a 3-Hour Demo Session on Oct 23 without any Financial Commitment.**
- If unable to Pass Exam on First Attempt, No Charges for Repeat Course.**
- Engineer-Focused Program with Example Cases from Engineering Domain.**
